

The only thing more impressive than our name is our product

AUTOGOLD & INDOLITE are a famous auto lighting brand in India, we became a positioned and trusted enterprise in auto lamps and accessories manufacturing field after decades of efforts.

DRS AUTO INDUSTRIES established in 1997 as a professional production oriented company, we mainly develop and produce Auto lamps, automotive interior and exterior decoration plastic parts.

We have advanced equipments for research, development, production, inspection and quality control along with a team of experts well equipped for the effective and efficient output. Our team of managers, experts, researchers and employees is a highly competitive work force targeted at achieving the goal of highest quality product and shortest lead time.

The highest Quality industry standard materials are used which guarantees the best in the class fit , finish, durability even to endure the most extreme weather and tropical conditions.

Each and every product goes through a series of Quality check and control measures at all the stages of production to ensure the best value product for the customer at best reasonable prices.

The infrastructure of the company is spread over an area of 1,25,000 sq. feet which creates space for very large industrial equipments, plants and machinery and all the production and operation functions. The huge plant capacity ensures the annual production output of 500 thousand units.

Some of the prominent machinery includes plastic injection moulding machines of different tonnage and capacity, in house world Class metalizing facility, hot plate plastic welding machines, hot melt applicators, testing equipments and well equipped and efficient assembly lines.

We focus on product quality and try to safeguard the interests of customers.
